## PROFILE SUMMARY

I'm a Game Developer passionate about creating immersive and mind-bending experiences. I love designing games that challenge players through clever puzzles, dynamic mechanics, and interactive environments that feel alive and rewarding to discover. I focus on crafting smooth gameplay, engaging level design, and visually striking elements that enhance the overall experience.

## EDUCATION

### Under Graduate

Game Programming

ICAT College of Design and Media | 2023-2026

## AREA OF INTEREST

- Game Developer
- Game Designer

## SOFTWARE KNOWLEDGE

- Unity Engine
- Unreal Engine

## SOFTWARE KNOWLEDGE

- C#/C++
- Python

## PROJECT: THE MAROONED

- Designed and developed a 3D single-player adventure game using Unreal Engine 5, focusing on exploration, puzzles, and environmental storytelling.
- Implemented interactive puzzle systems including multi-combination mechanisms, object triggers, and reward-based progression.
